

TOPCLIP

ABOUT US

Top Clip OOD was established in 2009 in Gabrovo, Bulgaria for the production and marketing of the highest quality clipband. Top Clip OOD offers speed and adaptability in deliveries to customers in domestic and international markets.

Since 2010 the company invested in wire drawing machines and started production and marketing of low carbon and zinc coated wired with diameters down to 0.25mm

Top Clip OOD caters for the packaging needs of the food industry and especially the needs of bakeries and bread producers in Bulgaria and abroad. Supplies all necessary consumables for the automatic and semiautomatic bread manufacturing lines-clipband, ribbon for printing date and code, Slicer blades for all variety of bread, natural greasing and release agent.

Top Clip OOD uses the highest quality raw materials to ensure exceptional quality of manufactured clipband.

APPLICATION

Clipband are designed for the use in well-known automatic, semiautomatic and manual packaging machines - HARTMANN, COMIZ, OPTIMA, RIANITA, THUERLINGS, HOBA, IPEKA, COMIPACK, IMASEZZADIO, HRANPAK, ELAN

Clipband can be used for sealing of bags for food and non-food products.

Clipband are widely used for sealing bags for packing bread, sweet and savory products, tea and coffee.

Clipband can be printed with information such as expiry date, batch number, etc.

Cut clips are very convenient for hand packing, for coffee and tea shops, where the pack can be reclosed after opening. Can be used in household, agriculture and horticulture.

The ribbons are used in most semiautomatic and fully automatic packaging machines for printing date or code at high speeds. High coverage abilities with excellent sharpness. Very versatility, coated/uncoated papers and boards leather, PVC, vinyl, PET, PA(nylon), polar substrates

Slicer Blades are used in most bread production lines for slicing all the varieties of breads: White, wheat, toast, soft and moist, firm textures and Milton variety breads

Semiautomatic bag clipping machines -table top or stand alone versions are very compact and suitable for any production environment. Available for different closure diameters equipped with printers to print/emboss date or code

Special greasing vegetable oil-natural greasing and release agent, which forms a thin layer on the metal surface so that the dough or the baked products does not stick on. Can be used for all machine systems, for dough and bread slicing machines. Contains natural antioxidant and non-hydrogenated vegetable oils.
